This bonus is based on your Binary tree volume, which consists of two legs, a Strong Leg and a Pay Leg. You, your upline, and anyone else on your team may place their personally sponsored Members onto your Binary team. You earn 10% commission based on the Pay (smaller) Leg. When you reach the rank of Gold Executive, you will also qualify to be paid on your Strong Leg volume.

Unigen Bonus

The UniGen has two components: Unilevel Commissions and Generation Commissions. The calculation of commissions for both components is based on the Sponsor Tree and Rank. No more than 50% of your qualifying rank volume can come from any one leg.

The unilevel commissions pay up to 5% of the volume on your Level 1, 2, 3, 4 or 5 depending on your rank. (See Rank Chart for details)

The Generation commission encompass all of the Members in your Sponsor Tree. Each generation consist of everyone from you down until you reach the next director or higher in rank, regardless of the level depth that they are in your organization. When you reach the rank of Director, you qualify up to 5% Generation Commission on your Generations 1 and 2--that means two directors deep on the same sponsor leg. As you advance in rank, the number of Generations your receive commission on increases, up to 7 Generations deep on each sponsor leg. Uni-Gen Commissions enable you to create long-term residual income as your team grows.
