

BloX

Homeland Security in a Bottle.
Get it. Use it. Protect it.

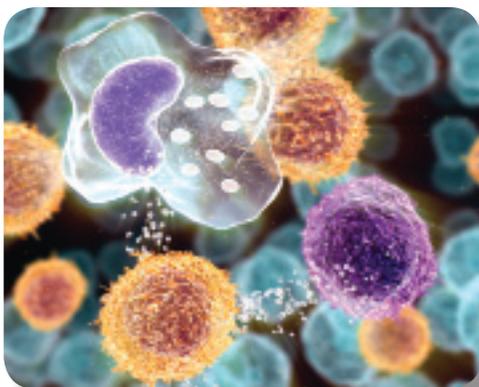

BloX is really like Homeland Security in a bottle. This rich blend of mushrooms and herbs has been formulated to benefit your immune system, which is your body's security system, protecting you from invading terrorists. The ingredients in **BloX** can assist with targeting the inflammation in your body. Scientific studies on the individual ingredients in **BloX** have confirmed amazing results, which in the long run will help you feel healthy and stay healthy.

Benefits of BloX:

- Supports the body's immune system
- Brings in immediate and powerful antioxidant-rich nutrients
- Supports your body's ability to reduce inflammation
- Works with your body to fight against free radical damage
- Builds your body's own cellular protection against free radical damage
- Balances your body's own natural immune defense system

If you come in contact with people, you need **BloX**. If you have children who go to school, you need **BloX**. If you shop at a grocery store where people have touched the shopping cart, the vegetables, or the place where you touch the key-pad to enter your PIN, you need **BloX**. There are just too many places where your body's defense systems may be tested. You can protect yourself more fully by taking **BloX** on a daily basis. **BloX** floods your body with antioxidants, and targets your immune system to boost it and strengthen it. When you do start to feel that scratchy throat or cough, nip it in the bud by increasing your **BloX** intake.

Inflammation affects many people because almost every modern disease is caused or affected by it. Many of us are familiar with an overactive immune response and too much inflammation. It results in common conditions like allergies, rheumatoid arthritis, autoimmune disease, and asthma. This is bad inflammation, and if it is left unchecked it can become downright ugly. **BloX** helps your body fight the effects of inflammation and helps you feel better.

A slide of inflammation in the body
