LIV LIFE WELL LIV LIFE WELL LIV LIFE WELL LIV LIFE WELL LIV LIFE WELL LIV LIFE WELL LIV LIFE WELL

AMP Plus is a powerful nutritional supplement formulated to activate and support your body's metabolic weight loss mechanisms for rapid weight loss and sustained weight control.

Let's face it. Many of today's popular diets can create hormonal imbalances, low energy, muscle loss, over acidity, increase inflammation, diarrhea, and bad breath. They also contribute increased insulin and cortisol levels, both of which are directly associated with fat storage, just to name a few negative effects. What's worse, many nutritional strategies are difficult to maintain, and when you stop your diet, extra weight gain is the typical result.

After years of study, LIV has developed a breakthrough product that will help mitigate many of the negative effects of today's most popular nutritional weight loss programs.

Whether your nutritional strategy to reach your ideal weight is keto, paleo, alkaline, points, fasting, eliminating sugar, high protein, food combining or any of dozens of eating strategies, AMP Plus can be a key to your success.

AMP Plus supports key body systems at a nutritional cellular and genetic level. Patented ingredients that help you deal with cravings, lack of energy, endurance and stamina.

Directions:

Take 1-2 capsules with a full glass of water in the morning or as directed by your healthcare professional. You may take on an empty stomach or with food. Benefits should be noticed within 60-90 minutes. Never take late in the day as sleep might be impaired. Do not take more than 4 capsules per day.
