

LIV FACT SHEET

BloX:
Get it. Use it. Protect it.

ADVANTAGES:

- Helps support the body's own natural immune defense system
- Work with the body to fight free radical damage
- Strengthening the body's own cellular protection.
- Brings in immediate and powerful antioxidant-rich nutrients
- Supports your body's ability to reduce inflammation

BloX BLoX is like Homeland Security in a bottle. It strengthens and supports your immune system, and helps ward off the bad-guys that want to get in and wreak havoc with your body. It has been formulated to “block” potential health problems that may invade the body when the immune system isn't functioning at its best. BLoX also supports the immune system when you are healthy, making sure you

We recommend that BLoX be taken daily to insure maximum protection. BLoX is produced by a proprietary process to extract and concentrate the active ingredients. Each capsule contains the equivalent of 2000 mg of raw mushrooms. BLoX contains no animal materials.

If you're in touch with people, you need BloX.

If you have kids who go to school, you need BloX.

If you shop at a store where people have touched the shopping cart, vegetables, or English keyboard for your PIN, you need BloX.

The places are too many where your defense systems can be tested.

BloX floods your body with antioxidants, and nutrients to support a healthy immune system.

Directions for Use: Take 1-2 capsules a day.
For periods of stress of the immune system, take 2-4 capsules a day.

Ingredients: Tiaga, Agaricus, Maitake, Turkeytail, Dan Shen, Shitake, Astragalus, Lycci Berry
