Benefits:

- Helps decrease appetite
- Can help increase energy
- Cleanses the body
- Can help reduce body fat
- Can help build lean body mass
- Produces a feeling of fullness
- Provides essential minerals

No need for meal replacement proteins, over-the-counter diet pills, or drinking acidic juices. Liv SXinney MAX is the answer.

Tired of losing the weight loss battle? Thousands have enjoyed the benefits of using Liv SXinney, but now **Liv SXinney MAX** comes to you in an even more powerful and convenient form. **Liv SXinney MAX** contains 100% natural, patented, and scientifically proven weight management ingredients.

If you are serious about your weight management goals, **Liv SXinney MAX** is the answer. In addition to powerful alkaline chlorophyllins and Fulvic Minerals, the **Liv SXinney MAX** formula has been enhanced with herbal extracts, vitamins, and minerals making it the most powerful and effective weight control option available.

Liv SXinney MAX gives you the cleansing benefits of chlorophyllins and the energy benefits of fulvic minerals, vitamins, electrolytes, and powerful herbal extracts. Fibersol is an excellent source of soluble fiber, which has been clinically shown to help maintain intestinal regularity and help retain healthy serum triglyceride levels. Studies have also shown that it promotes mineral absorption.

For those who wish to enjoy the Liv SXinney benefits without caffeine, we recommend using **Liv SXinney sticks**.

Liv SXinney MAX contains four clinically-proven and patented ingredients: ForsLean®, GarCitrin®, BioPerine®, and SolaThin™. No other product on the market today contains all of these ingredients to create a synergistic weight management formula.

ForsLean® is made from *Coleus forskohilli*, an ancient Ayurvedic plant and member of the mint and lavender family, which grows in the mountains of Asia. The active ingredient, forskolin helps build lean body mass and maintain healthy body composition through a cascade of chemical reactions that cause fat cells to essentially release their energy and melt away. ForsLean® boosts your metabolism without the unhealthy side-effects and anxious feelings associated with ephedrine.

GarCitrin® is made from *Garcinia cambogia*, a small fruit that resembles a miniature pumpkin. It is indigenous to India and parts of Asia. The two active extracts are hydroxycitric acid (HCA) and garcinol. When combined they are known to suppress appetite and enhance fat-burning.

BioPerine® comes from an extract from black pepper and is known as a "bioavailability enhancer". That means that it will work with your body to ensure that all these great ingredients are absorbed and used in the best possible way.

SolaThin™ is a pure potato protein extract consisting of several proteins, including protease inhibitor PI-2. This pure vegetable-sourced ingredient contains no added compounds and features more than 90% protein, PI-2 included, to promote feeling full. It has been clinically shown to produce a feeling of gastric fullness, and thus can help reduce food consumption up to 20%, in reported results. SolaThin™ also delays the emptying of the stomach. When it takes longer to empty your stomach after you eat it is possible to feel more full and satisfied. Your stomach may stay full for a few hours after you are done eating which can prevent you from overeating and snacking in between meals.

Directions for Use: Empty one stick pack into 32-44 oz of water and stir or shake to dissolve. Drink all day long.

Ingredients: Proprietary Blend: Fibersol® (resistant maltodextrin soluble dietary fiber), LeanGard® (*Coleus forskohilli* 10% forskolin), GarCitrin® (*Garcinia cambogia* fruit and garcinol), BioPerine® (*Piper nigrum*) SolaThin® (*Solanum tuberosum*), Chlorophyllins (from plant derived sodium copper chlorophyllin), Stevia leaf extract (*Stevia rebaudiana*), Silica (silicon dioxide), Caffeine (100 mg, naturally derived), Fulvic Mineral Concentrate, Spearmint Oil (*Mentha spicata*), Vitamin and Mineral Blend: Potassium (carbonate), Niacin (Niacinamide), Copper (from sodium copper chlorophyllin), Vitamin B-6, Vitamin B-12, Chromium (amino acid chelate).
