Want To Look Younger?

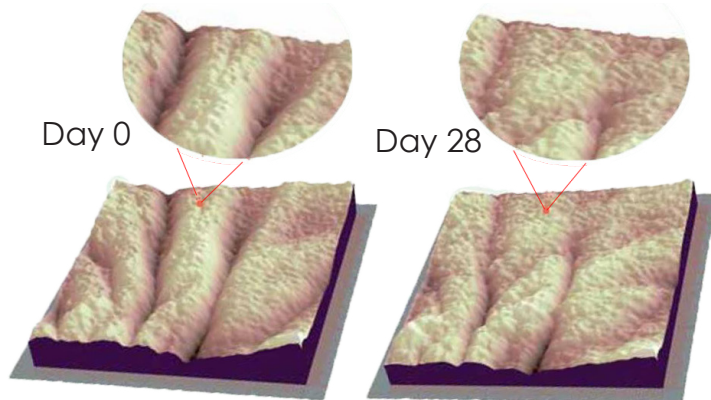

Age Defying Results

Diminish the Appearance of Wrinkles
Increase Skin Firmness
Improve Skin Tone
No Injections Needed!

Aging skin begins in your 20s, even if you don't see it. Sun damage and environmental stress cause our skin to age prematurely. Even though you may not notice the lines, you still need to protect your skin. As we age, our skin loses collagen, begins to show wrinkles, and may even sag. We start to lose our once youthful complexion. That could all be in the past with the help of LIV's Love Your Skin Age Defiance Multi-Complex Serum. It is your skin's most powerful ally and protector against aging. The Age Defiance Serum features LIV's exclusive Anti-aging Botanical Technology, including the award winning technology that mimics the natural muscle relaxing peptide found in viper venom. Say goodbye to wrinkles!

Studies show that participants looked 11 years younger in 28 days using the powerful ingredients in LIV's Age Defiance Serum. No need for surgery, Botox or injections.

Age Defiance Serum: Keep the fresh glow of youth and reduce the laugh lines you have earned. LIV's Age Defiance Serum is a synergistic complex formulated with powerful plant extracts shown to increase the production of collagen, elastin, and hyaluronic acid. The Serum's compounds work to make skin firmer while reducing the visibility of deeper wrinkles, resulting in significantly smoother skin. The natural ingredients increase skin exfoliation and relax muscle contractions to help retain your fresh, youthful glow.

Targets:

Crows Feet
Laugh Lines
Forehead Wrinkles

Makes Skin:

Smother
Firmer
More Elastic

Great For:

Ages 20s +
All skin types
Women & Men

Non-Surgical Option

More Youthful Complexion
